KEY FEATURES

BENEFITS

Chest-mounted light	Most comfortable and stable position for hands-free lighting. Allows for better depth perception, peripheral vision and night vision v headlamps. Keeps light away from other's eyes and eliminates disorientation common with precipitation.
3-Watt Luxeon LED	Hi-output, performance LED - clean, consistent and efficient light.
Fresnel Lens	Provides soft, even light with no 'hot spots' or 'hard edges'.
Beam width adjustment	Unique Rotary Dial twists to adjust beam from narrow to wide - 20' wide at 20' out at widest point (covers a two-lane road)
95° angle adjustment	Allows for fine-tuning the beam while moving from 10° above parallel to 85° angle down on road or trail - keeps light away from eyes.
Light weight Light	1.9 ounce weight eliminates light bounce, reduces feeling of light weight
Separate Battery Box	Keeps weight of batteries on back and positioned in most comfortable and secure location.
Cool Poly™	Allows units to remain cool during use and allows continuous use of high beam for up to 3 hours without overheating.
